Casework Example

Casework Example

South Louisiana Serial Killer

- Multiple victims in and near Baton Rouge in early 2000s
- Based on an eyewitness account, a Caucasian suspect driving a white truck was the main focus of the investigation
- Case was referred to DNAPrint Genomics-ancestry DNA testing using DNAWitness software (company no longer exists)
- DNAPrint issued the following results in 2004
 - 82% Sub-Saharan African
 - 12% Native American
 - 6% European
 - 0% East Asian
- Based on results, police investigation changed from Caucasian to African American suspect
- Derrick Todd Lee (African American) was convicted in 2004
